Yashraj Ghule, Student at MIT Academy of Engineering, Alandi, Pune

Hey, I'm Yashraj Ghule (aka Yashraj221B)! I'm a 17-year-old self-taught coding enthusiast with a passion for computers and machines. ☰ I've been tinkering with programming since I was 13, and my journey, much like my code, is always evolving. I have a deep interest in software and web development, automation scripts, and computer networking. I speak Python, C#, JavaScript, Rust, HTML/CSS, and have dabbled in Java, C/C++, and Go. I'm also passionate about cybersecurity—breaking things to make them better and pushing boundaries to create innovative solutions.

Details

Nationality Indian
